

MS Windows Server Training - MS System Center Configuration Manager 2007: Planning, Deploying, Managing in Geneva, Zurich, Huston, San-Antonio, Dallas, Los Angeles, San Diego, New York, Washington, Chicago, San Francisco and anywhere in Switzerland, USA, Great Britain and Germany.

ID : 850

Goal : This training will provide you with the knowledge and skills to plan, deploy, and manage MS System Center Configuration Manager 2007 R3. This training focuses on planning and deploying sites and clients, configuring software distribution, deploying operating systems, and managing software updates. It also focuses on remote tools and managing mobile devices.

Audience : This training is intended for systems engineers with one to three years of experience

supporting multiple desktop and server computers running MS Windows Server in medium to large enterprise organizations, and who have a need to plan a System Center Configuration Manager 2007 deployment.

Prerequisites : This training requires that students have a base-level understanding of Systems Management Server 2003 or Configuration Manager 2007. It also requires that students have a system administrator-level working knowledge of deployment, configuration, and troubleshooting for Windows-based personal computers, as well as a working knowledge of TCP/IP networking, MS SQL Server, Active Directory Domain Services (AD DS) or Active Directory directory service, and basic Public Key Infrastructure concepts.

Goals :

- Introduction
- Overview of MS System Center Configuration Manager 2007
- Planning and Deploying a Single-Site Architecture
- Planning for and Completing Client Deployment
- Inventory Collection, Software Metering, and Asset Intelligence
- Querying and Reporting Data
- Distributing Software Using MS System Center Configuration Manager 2007
- Deploying Virtual Applications Using MS System Center Configuration Manager 2007
- Deploying and Managing Software Updates
- Deploying Operating Systems Using MS System Center Configuration Manager 2007
- Working with Desired Configuration Management
- Configuring Wake On LAN, Out of Band Management, and Remote Tools
- Maintaining and Monitoring MS System Center Configuration Manager 2007
- MS System Center Configuration Manager 2007 Native Mode and Internet-Based Client Management
- Training Conclusion

Pedagogical method : Practical training based on training support material. No comprehensive website is created at the end of training.

Suggested duration for presentiel training (days) : 5

Suggested duration for on-line training (days) : 6

Daily price in face-to-face : 3100 CHF

Daily price in remote : 1488 CHF

Daily price in remote for students : [contact](#) us (only if student card!)

Daily price in remote (with recording) : 15500 CHF

Prices are per day per trainee without course material, without certificate, without evaluation, without exam, without training room or computer (these are each optional and must be requested in addition in the contact form for the establishment of the quote).
