

Six Sigma training in Geneva and anywhere in Switzerland, USA, Great Britain and Germany.

Black-Belt Six Sigma for the industry

[\(more...\)](#)

The role of the Black Belt is both to support complex and strategic projects as well as to contribute to the deployment of the Six Sigma approach. Specific tools are needed (change management, process redesign, advanced statistics). As an extension of the Green Belt training, the objective of this training is to allow the mastery of these tools to implement them through projects generating

very large returns on investment.
