Foundations of data manipulations

[\(more...\)](#)

This course introduces the statistical package IBM SPSS by focusing only on the data management aspect of the software (input/output, clean/format variables) and the various input/output methods (reports, charts, code). This course is the basis for next statistical course techniques in IBM SPSS.

Trainings, Courses available in [Chicago](#), [Dallas](#), [Geneva](#), [Huston](#), [Los Angeles](#), [New York](#), [San-Antonio](#), [San Diego](#), [San Francisco](#), [Washington](#), [Zurich](#) and anywhere in Switzerland, USA, Great Britain and Germany.
